

# DID YOU KNOW?

growing up  
**G·R·E·E·N**

## Registration

- Recycling one aluminum can saves enough energy to run a TV for three hours or a 100-watt light bulb for four hours.
- Americans use 2,500,000 plastic bottles every hour!
- Glass never wears out -- it can be recycled forever.
- Although the rainforest is home to the most number of plants and animal species, it covers only 6% of the surface of the earth.
- In the United States, 735 species of plants and 496 species of animals are listed as threatened or endangered.
- Every year we make enough plastic film to shrink-wrap Texas!

# HOW you can help

## Sessions

Each week we will explore the following topics:

Nature Lovers  
Metal Madness  
Water Discovery  
Paper Pleasers  
Glass Goodies  
Plastic Planet  
Endangered Species

## Session Information

We offer after school programs for elementary and pre-schools. Each session will introduce a basic understanding of how to live more simply. Every week your child will gain a better understanding of their natural surroundings, environment, and how to recycle materials into creative projects. Your child will learn through music, play, and creation.

Each session is seven (7) weeks long and meets once a week for an hour. The cost is \$114.00 per session.

Sessions are held at your local school.

To sign up, please fill out the registration form on the back of this brochure.

Please visit our website for updated session dates and information.

# WHAT

do we do?

# WHO are we?

**Growing Up Green** is a little company with big dreams offering a unique introduction to children on how their footprints will make a difference in our future.

Our program will allow children to explore new ways to appreciate our Earth and natural surroundings by developing habits, creating projects and enriching others.

By sharing our love of people, animals and nature we will promote a harmonious environment that will encourage the inner light to ignite in each child.

### Become a member.

Can't join a session? Well then, become a member! Members participate in family-oriented, community volunteer projects. It's a fun way to teach your children about giving back & a great activity everyone can enjoy! Check out our website for more information.

### Give Your Word.

Start by giving your word - just a simple promise to live more simply. Look on our website for a printable information form you can share with the whole family & post on the fridge as a reminder.

### Attend a session.

Sending your child to a Growing up Green session will get them involved & teach them how to live more simply. Plus, it's a lot of fun!

### Donate.

Our program is about recycling, so please check out our website for our current supply list. We will gladly pick up any items you may have. If you're unable to donate supplies, we also take monetary donations for our scholarship fund. This fund is used to defray the cost for children who would otherwise not be able to attend. Check us out at [www.growingupgreen.org](http://www.growingupgreen.org) for more information.
